

Haven

Design by Mark Gabbertas

The Haven upholstery system is the foundation of the entire Haven family of products that comprises of sofas, stools, tables, screens and pods that support the drive towards a location free, collaborative working environment.

Haven comprises of modular elements including arm chairs and sofas, all of which are available with and without a headrest. Haven can provide excellent personal privacy, a haven, within a busy world.

A place for either contemplation or communication amongst a team. Cushion detailing is deliberately softer and more informal and a contrast to the formal structure of the body of the units.
